Kevilton Electrical Products (Pvt) Ltd

Inspection Report of Incoming Material

Product / Type	**10 A,'L' Terminal**	Material Code	
Supplier		Qty. Received	
Supplier Ref		Inspection lot	
Received date		Packing Slip date	

Results

Units in mm

Dimensions		**Samples**			**Specification**	
		S1	S2	S3	min:	max:
Terminal	Height > H				10.7	10.9
	Width > W				5.2	5.3
	Breadth > B				5.8	6.0
Riveting Pillar	Height- > P1				1.9	2.0
Riveting Pillar	diameter (outer)				3.1	3.2
C/H diameter					3.5	3.7
Distance from screw hole to bottom					1.4	1.6
Riveting hole inner diameter					1.55	1.65

Master Inspection Characteristics		**Sampling Procedure**	**Defect. Qty.**	**Quality Status**	**Specifications**	
Color		SP01-			As per Std. Sample	
Co-ordination		SP01-			Coordination with D/housing shall be correct	
Tapering – C/H entry		SP01-			shall be correct.	
Threading hole positioning		SP01-			shall be correct	
Mechanical-	Torque	Fix-3			> 0.5 N m	
Application-	Threading	SP01-			Free movement	
Riveting -	Tightness	SP01-			Shall be riveted well with sw.contact	
Labeling and packing		SP01-			Each box / bag should be labeled with a packing slip	
Sample got riveted on		Satisfactory - √			Unsatisfactory - X	
Sampling Plan –SP1 (ISO 2859)						

REMARKS

CONCLUSION

Lot, Accepted / Rejected / Sort out / Rework based on visual inspection & application.
